

annual report

JULY 1, 2003 - JUNE 30, 2004

G. ARNOLD MULDER, M.D., PRESIDENT

This has been a good year at The Arboretum and I have every hope that the next year will be even better. Dr. Wourms has undertaken projects that I think will help our progress toward becoming an exciting west coast destination — a garden of infinite attraction.

We have a wonderful team in place to push our ideas forward. The relationship with our Los Angeles County partners is as good as it ever has been, and we have only one main goal, to make The Arboretum better and better.

The staff and volunteers have spent thousands of hours working on restoration projects in the gardens and their efforts show. The Los Angeles Arboretum Foundation board committees have started planning sessions that will develop new projects and energize our efforts to find the funds to pay for them. But, plans without action are not worth much. What we are actually able to fix and change and create is worth all the effort it takes.

We hope you will be here often next year to watch it happen.

LOS ANGELES ARBORETUM FOUNDATION BOARD OF TRUSTEES

Board Officers

President: G. Arnold Mulder, M.D., Life Vice President: Reginald J. Secretary: Alan R. Texeira, Treasurer: Timothy K. McCarthy

Board Members

Carol A. O'Bernett, George A. Brander, Shannon Cohen, Mark Anne Cunningham, Carol Cumberland, William V. Enghoff, Jr., John R. Felt, Austin R. Hornaday, Brian D. Helges, Jane R. Hermann, Judy M. Horton, David D. Hu, George Kinkadee, Charles Lucas, Hank Mader, Thomas H. Mottz, Susan O. O'Connell, E. H. Adelman, Michael Robert J. Hernandez, John Snider, Rose B. Sorenson, Sho Tay, Elayne G. Techentin

Chief Executive Officer

Mark K. Wourms, Ph.D., CEO

MARK K. WOURMS, PH.D., CEO

There is only one "first" year. When I arrived in July 2004 as the new Chief Executive Officer of The Arboretum, I found a "diamond in the rough." The Arboretum was cherished by the community, the volunteers and staff, yet much work remained undone before this rough diamond would be a shiny gem.

A few basic concepts were implemented immediately this year to get The Arboretum moving faster in a positive direction. These concepts included:

Fun — We instituted a policy of fun for employees, volunteers and visitors. Working at The Arboretum should be fun; we are here to educate and enrich people's lives. Volunteering should definitely be fun; it demonstrates the great love and passion for The Arboretum and its mission. A visit to The Arboretum should be a fun experience for the entire family, becoming a learning, inspirational and memorable experience.

Basic Care — We brought together human, mechanical and financial resources to systematically clean up The Arboretum. In spite of heroic efforts by The Arboretum employees, and volunteers, many factors, including reduced funding and staffing, made basic and systematic care a challenge — the gardens simply needed more. Cleaning and freshening up a garden can be both simple and complex, but by being consistent, we enhanced The Arboretum's natural beauty.

Customer Service — We welcomed our visitors with smiles, our customers had to come first! Above all else, everyone from our employees, to our members, to our visitors, needed to understand and feel that The Arboretum existed to bring people and plants together. We needed to elevate the perceived and actual levels of customer service provided by being friendly and accessible to the public.

Much of the first year was dedicated to finding ways to

enable the great staff, volunteers, Los Angeles Arboretum Foundation Board and Los Angeles County, to do what was best for The Arboretum. The results of this planning are beginning to show, but much more will be evident in the next few years.

This 2004-2005 Annual Report highlights a few of the many achievements at The Arboretum over the last year. All of these activities are noteworthy because they were only possible through the combined efforts of many different people and groups in the community. These changes and improvements have positioned The Arboretum to be more financially stable, to be of greater relevance to our members and visitors, and has increased opportunities for family fun and learning while ensuring sustained growth in the future. Some of what you can expect at The Arboretum over the next year is also laid out in this report. With your continued support and advocacy, we can do even more. I encourage you to make The Arboretum one of your priorities. This diamond is beginning to shine!

See you again soon at The Arboretum!

The Arboretum delivers experiences for our visitors and community to discover, learn and appreciate the relationship between plants and people. Below you will find our top five accomplishments in four categories for FY 2004/2005.

PROGRAMS FOR KIDS & FAMILIES

The Arboretum is striving to be the most child- and family-friendly garden in the United States. To do this we are improving the facilities and educational programs by providing experiences that bring people and plants together.

1. The Roots & Shoot Children's Discovery Node, the first of several children's discovery areas was built to provide a place where plants and children's imaginations grow.
2. The Nature Nuts Summer Camp for children ages 8-12 provided more opportunities for learning about natural history through nature, gardening, cooking and art.
3. The first ever "Great Easter Egg Hunt" was enjoyed by over 300 families.
4. The Annual Members' Meeting and Ice Cream Social had the best turn out in several years. Over 120 Members and their families attended the meeting and enjoyed making ice cream sundaes and nature crafts.
5. The Kids in Nature section in The Arboretum Members' Magazine is a first effort in communicating and promoting family fun and learning beyond our grounds.

IMPROVEMENTS IN THE GARDEN

To enhance the natural beauty of The Arboretum, many projects were undertaken to improve basic care and improve the visitor experience.

1. Removal of emergent vegetation from the waterways near Tule Pond and Baldwin Lake improved vistas, opened new planting opportunities and helped to maintain mosquito control.
2. New walkways in and around the Tropical Conservatory and the Begonia Greenhouse were added as part of American Disabilities Act (ADA) improvements to make exhibition areas more accessible to the public.
3. Over 500 new plants were accessioned and added to our collections.
4. A new Weaver's Garden, designed and installed by Nancy Goslee Power & Associates demonstrates to our visitors one of many relationships between plants and people.
5. Over 2,000 new plant identification labels were installed by volunteers. Our visitors can better learn the origin and names of the plants in our collections.

EVENTS

A number of events are held each year to introduce The Arboretum to new audiences and engage our visitors in fun and educational activities, while raising money to support our mission and facilities.

1. The California Gourd Arts Festival preview fundraiser, "Oh My Gourd" was a collaboration between The California Gourd Society and The Arboretum, to celebrate the exciting cultural uses of gourds world-wide.
2. The Annual Plant Sale & Garden Show, featured more Arboretum plant collections and introductions for sale, a practice we will continue in future years.
3. Jacob and Hank Maarse graciously hosted the first ever "Moonlight Soiree" fundraiser as part of the Annual Plant Sale & Garden Show. The fun-filled evening raised additional dollars to support The Arboretum's mission.
4. The 60th Anniversary of the Peace Rose was celebrated at the Rose Show & Sale with a delegation from England, Ireland and Scotland.
5. The Korean Garden Festival attracted people from throughout our community reflecting great interest in the Korean Community and beyond. This highlighted the value of a Korean Garden at The Arboretum.

OVERALL ACCOMPLISHMENTS

We are improving our facilities every day by conserving plant collections, caring for our historic structures, and supporting our outstanding employees, volunteers and community partners.

1. The Amazing 29,164 hours donated by adult Volunteers, and the 4,200 hours donated by the Junior Volunteers
2. The 23% growth in Memberships from 3,567 to 4,632 and the creation of membership brochures in Chinese and Korean
3. Increased Corporate Donations and Community Partnerships. The 2004 Annual Giving Campaign realized a 46% increase in donor support.
4. The CEO's visit to Korea and subsequent visits by Korean officials to The Arboretum to begin steps in the building of a Korean Garden.
5. The Painting and Tower Roofing of the Queen Anne Cottage enhanced this historic treasure.

Los Angeles Arboretum Foundation Financial Highlights for Year Ending June 30, 2005

Membership – The Arboretum welcomed 1,065 new members, for a total of 4,632 memberships

Anonymous Donation – A generous donation of \$ 25,000 was made to host The Arboretum's newest Children's Discovery Node.

Cal Phil – Through an agreement with the California Philharmonic Orchestra, the Foundation now receives a portion of ticket sales

Appeals – Three appeals went out this year, resulting in successful support beyond membership levels, jumping from \$ 16,550 to \$ 50,800

Memorials – Tree and bench memorials increased throughout the garden. This is an honorarium for those special ones in our lives.

Los Angeles County Support

FUN FACTS

The Arboretum grows 230 of the 750 species of Eucalyptus found in Australia.

The plant records database currently contains over 10,700 living accessions with over 3,000 of these being orchids.

Over 220 species of birds have been observed at The Arboretum.

In the last 10 years The Arboretum has been a location for 150 commercial photo shoots, 87 commercials, 123 feature films and television shows, and 52 miscellaneous shoots including music videos and documentaries.

When Elias Jackson "Lucky" Baldwin purchased the 8,500-acre Rancho Santa Anita in 1875, he paid an amazingly high \$25 per acre.

Baldwin Lake covers 3.5 acres acting as the "heart" of The Arboretum.

The Tram path is over 2.5 miles in length.

Over 3.0 million people have visited The Arboretum in the last 10 years.

The Arboretum has acted as a living research collection and utilized extensively by authors and journalists.

The Arboretum has introduced over 120 plants to Southern California since 1957.
